CAREER OBJECTIVE

As a Computer Science and Engineering student, I enjoy building software, exploring new technologies, and learning through hands-on experience. I consider myself a good learner, always open to improving my skills and adapting to challenges. I'm eager to take on a role where I can contribute, grow, and work on impactful solutions while learning from real-world experiences.

PROJECTS

NeuroReflect – Multimodal AI System for Mental Health Reflection

- An AI system that analyzes speech and text to detect emotions, depression, and mental disorders using signal processing, NLP, and machine learning, with a focus on modularity and explainability

Pet Care App

- Collaborated in a team of four to develop a Flutter & Firebase-powered mobile application, streamlining pet care management. Enhanced knowledge in cross-platform development, backend integration, and teamwork.

EXPERIENCE

IEEE EMBS Intern | 2025

- Completed a 1-month internship, contributing to the development of an AI-based mental health reflection system.

IEEE CIS Intern | 2025

- 2-month internship , developing an AI-powered stock analysis and advisory system.

IEEE Computer Society Execom Member | 2024-25

- Actively engaged in IEEE technical events, networking, and knowledge-sharing initiatives.

EDUCATION

B.Tech CSE | 2022-2026

Sree Buddha College of Engineering, Pattoor

- GPA: 8.13
- Computer Science and Engineering

TECHNICAL SKILLS

- Programming: Python, C, Java, JavaScript
- Web Development: HTML, CSS, Node.js
- Mobile Development: Flutter
- Databases: MySQL
- Core Interests: AI & ML, Software Development

CERTIFICATION

Crash Course on Python

Google

Introduction to C Programming

NPTEL

Troubleshooting and Debugging Techniques

Google

Using Python to Interact with the Operating System
